

LifeArt Cabinetry Closet Collection

Large or small, new or existing, our closet line can be customized to fit your needs. Organize your closet and optimize space with our wood closet system. Wood construction provides durability and safety, with the look of luxury. We pride ourselves on being a go-to custom closet solution. Not only can you find all-wood closet systems, but we offer a fuller range of organizers and accessories to create the perfect storage system for you.

Wood Closet System

The quality of our all-wood closet line set us apart from others. Only plywood is used for our closet panels and shelves. The doors and drawers are solid wood with MDF center panel. Soft close hinges and slides are standard for the closet system.

Closet Organizers & Accessories

Closet organizers are made of aluminum for lightweight and durability. Soft close is found on most organizers unless otherwise noted. From hanger lift to corner spinners to shoe rack, your closet can be turned into a luxurious closet while fully utilizing all available space.
