Company Introduction

LifeArt Cabinetry Corp is a well-established kitchen and bath cabinet wholesaler, owned and operated within the United States, with a manufacturing plant overseas. LifeArt Cabinetry is headquartered out of Norcross, Georgia. We have several warehouses with over half million square feet containing vast amount of inventories to meet the needs of our customers. Our distribution facilities are located in Norcross, GA and Secaucus, NJ, with more locations being added in the near future. As a cabinet wholesaler, LifeArt’s passion is to make sure it delivers the best quality kitchen cabinet solution to its dealers. With an organized logistics team, LifeArt ensures to provide only top-level services to dealers around the United States.

Our Product

LifeArt Cabinetry currently offers fifteen cabinet lines (at the time of this publication), each with its own style and color to set itself apart from the others. Whether the cabinets are used for home improvements in the kitchen, bathroom, or in another area of the house such as an entertainment center, custom closet, wet bars etc., they can be designed to maximize style and space.
FULL OVERLAY FRAMELESS CABINETS

Terms & Conditions

ORDER PROCESSING & PAYMENT:

- All orders from LifeArt Cabinetry Corp approved dealers will be accepted online through our ordering platform (https://www.selectedvendors.com).
- Full payment is required before an order will be processed.
- Payment can be made by Visa, Master, Discover, American Express, or E-Check (requires 5-7 days waiting period for funds to clear).
- Once the order is in the processing status, no changes can be made. Additional items can be processed as a new order.
- Cancellations made prior to the order being prepared will not be subject to the restocking fee.
- Cancellations made after an order is prepared are subject to a 20% restocking processing fee.

SHIPPING AND DELIVERY:

- SHIPPING:
  - Estimated 2-4 days standard transit time for commercial delivery. Please add 1-2 additional days for residential.
  - Shipping charges must be paid for when your order is placed.
  - All freight shipping destinations must be tractor/ trailer accessible
  - For residential deliveries the freight company will usually contact you 24 hours in advance to schedule delivery (usually a 3-4 hour window).
  - Shipping charges cover one delivery attempt. The customer is responsible for any additional shipping and handling charges for delivery failure due to customer circumstances.
  - Tracking information can be found in the order details online.

- DELIVERY:
  1. Do a walk around each pallet entirely. Carefully inspect any visible signs of possible physical damages. If there is none, then sign off on the driver’s proof of delivery. If there are damages, proceed to step 2.
  2. Take clear pictures of any damage sections.
  3. Make clear note of the damage item(s) on the driver’s proof of delivery (POD) paper.
  4. Start the claim process on your account for Selected Vendors.
  5. Contact your sales representative immediately.

Do not reject damaged items. SEE IMPORTANT NOTES ON MISSING AND DAMAGED ITEMS on the next page.
MISSING OR DAMAGED ITEMS: (INCLUDING CONCEALED DAMAGE)

- A claim will need to be done for the damage parts during shipping. Please login to our platform and follow the instructions below. Contact us if you have any questions. If the order is still in transit status, you will have to change the status to “Complete” in order to process a claim.
  1. Navigate to “Incomplete Orders.” Locate the order and click on “Details” on the right side.
  2. Right below the shipping info there should be several links. Click on the one that says “Receive.” This will change the status to “Complete Orders.”
  3. Next step is to go to Complete Orders and click on “Management” for the order. Select “Claim” in the popup box.
  4. Next click on the box next to the item and type the reason for the claim. Pictures of the damage cabinets along with the driver's proof of delivery with the damage note will need to be uploaded.
  5. Click on the “Submit” option.
- Once the claim has been submitted, a customer service agent will review and contact you if any further information is needed. Please allow 24-48 hours for the claim processing procedure.
- LifeArt Cabinetry Corp cannot be held responsible for any labor costs accrued during the installation of any of its products sold via any of its channels of distribution. This includes, but is not limited to, items that may be flawed or have become damaged in transit.

PICK UP ORDERS:

- The system will send a message when the order is ready for pick up from the warehouse.
- Orders not picked up within 5 business days will be subject to a storage charge of $25 per pallet per day.
- Orders not picked up within 10 business days will be subject to storage charges and additional restocking fees of 20%.

RETURNS:

- To submit return request for unwanted item(s), click on “My Account”, then click on “Complete Orders” to locate the order number which the return item(s) is from. Click on “Management” drop down, and click on “Return”. Once you click on “Return”, the full order list will show up. You may check the box(es) on the left side of the list to select the return item(s). If you are returning fewer quantity than what you purchased, please be sure to change the quantity to what you will be returning before you click the submit button on the bottom of the page. You will also be required to upload a picture of the unopen box(es) if the return item(s) when you submit the return request. There is a 45 days return policy on return from the day of purchase. Please note that 20% restocking fees will apply.

ASSEMBLY AND MODIFICATIONS:

- Assembly order is available for pick up or shipping from our warehouse.
- Depth reduction modification is available up to 21 inches for cabinet with a drawer box.
- For other modifications, please contact your sales representative.
Disclaimer

Disclaimer for Painted Wood Cabinetry:

- Please be aware that wood expands and contracts. This natural process, occurring on painted cabinetry such as the Anchester, Lancaster (Gray and White), Oxford, and Princeton lines, will create open joints in the painted finish. An open joint line is not considered a defect and it is widely accepted in the kitchen cabinetry industry. The finish will still protect the surface, and the structural integrity of the joint will not be affected. These issues are shared by every manufacturer of painted all wood cabinets, and are not unique to the LifeArt Cabinetry Corp.

- Wood may expand and contract differently from cabinet to cabinet. Even joints within the same cabinet may behave differently. Some joined wood may not show any joint lines, others may be slightly visible, while others may display easily visible joint lines.

- Joint lines also may occur due to the repeated impacts from normal everyday use.

- An exposed open wood joint can be damaged from prolonged exposure to water or heavy moisture. Therefore, wipe off any excess moisture from cabinet surfaces as soon as possible.

- Discoloration: All Paints, especially lighter colors, are susceptible to discoloration due to airborne particles such as cooking, grilling, tobacco smoke, fireplaces or candles. Prolonged exposure to natural or artificial light may alter the finish color. Moisture may also discolor the finish.

Disclaimer for Stained Wood Cabinetry:

- All wood is a product of nature. While each wood type grows best in specific conditions, nature provides differences which are critical to the growing soil and weather conditions will have their effect on grain patterns and color.

- The beauty of real wood is created by the infinite variation of grain, texture, and color. This is especially true of hardwood and hardwood veneers; hardwoods are particularly noted for their variety in graining. It is the nature of hardwoods to have mineral streaks (light brown, dark brown, to black areas in the wood) and great variation in graining. Since the number of mineral streaks varies from board to board, you may notice differences between cabinets, doors, drawers, or even on the same panel. Mineral streaks or unusual graining are considered to be characteristic of natural wood and will not be considered to be a defect or reason for replacement. No special emphasis is made to select materials to match each other.
• All color characteristics of wood will change as it ages. This will gradually change the color of the wood and stain. The amount and rate of the change will depend on many factors, including wood type, stain color, and the amount of direct sunlight. In addition, exposure to smoke, chemicals, and man-made light may, over time, cause some materials to vary from their original color.

• While this softening of the color is not noticeable day to day, it will make a difference over an extended period of time. This is why cabinets or accessories added at a later date may not exactly match previously installed cabinetry. For the same reason, door samples or displays may not represent the exact color of cabinets you receive.

• Due to these natural and environmental factors, you will understand why LifeArt Cabinetry Corp cannot be responsible for naturally occurring changes experienced by the wood in your cabinets.

Disclaimer for Images:

• Photographic representations of wood, stain, or paint are effected by both direct and indirect lighting, as well as computer screen and printer limitations. LifeArt Cabinetry Corp strongly recommends using these photographs as a reference and your final decision should be based upon looking at the door samples.

Disclaimer for Products & Prices:

• Products and prices are subject to change without prior notice.
Cabinet Care

How To Care:

• A soft cotton cloth dampened with warm water is usually sufficient to clean your cabinets. If more thorough cleaning is required, use one of the following cleaning solutions:
  • A fresh solution of mild dishwashing liquid mixed with warm water.
  • A mild all-purpose cleaner that does not contain ammonia or silicone.
  • Use the mildest cleaning solution that will successfully clean your cabinets. Stronger products may damage or discolor your cabinet finish, may void your warranty, are not recommended.
• After cleaning, wipe all surfaces with a clean, damp cotton cloth, dry immediately, using another clean/dry cloth.

Cleaning Products to Avoid:

• Avoid using the following cleaning products on your cabinets:
  • Harsh chemicals
  • Abrasive cleaning products such as: tub/sink cleansers, scouring powder, scouring pads, or steel wool.
  • Sponges or dish cloths. (They may contain particles that could scratch your cabinets, or they may contain staining food or oil residue.)
  • Ammonia or ammonia based cleaning products.
  • Bleach or bleach based cleaning products.
  • Silicon based cleaning, waxing, or polishing products.

Splatters & Spills:

• Clean spills and splatters immediately, prolonged exposure to spills, including food, water, or other liquids, or to oil and grease splatters can cause permanent discoloration or damage to your cabinet’s finish.

Regular Dusting:

• Use a clean/dry soft cotton cloth for regular dusting. Packaged dusting sheets are not recommended. Do not use pre-moistened dusting sheets, or aerosol products made for dusting.

Waxing & Polishing:

• Waxing is not recommended. Over time, waxing and polishing compounds may build up to the surface of your cabinet causing hazy, streaky, or a yellowed appearance to your cabinet’s finish.
Cleaning Glass Doors:

Extra care is cleaning glass doors. Spray an ammonia-free glass cleaner on a clean cotton cloth or paper towel. Do not spray cleaner directly on the glass. The spray could run or seep behind the frame or mullions and cause damage.

Scratches, Gouges, & Nicks:

A Touch-Up Kit is available to hide surface damage. Use the touch-up pen to hide minor blemishes. Use the kit’s tinted putty to fill deeper scratches, gouges, or nicks. There is also a fill stick available with the kit. Certain colors will only have the touchup pen and stick available.

Avoid Moisture Damage:

Avoid draping damp clothes or dish clothes over cabinet doors. This moisture can cause permanent damage: including but not limited to peeling and discoloration of the cabinet’s finish.

Avoid Light Damage:

Exposure to direct sunlight tends to darken the color of natural wood products. Sunlight can also fade painted wood surfaces. Consider the use of draperies or blinds to protect your cabinets from direct sunlight.

Avoid Heat Damage:

The heat generated when using an oven’s self-cleaning feature is much greater than during normal cooking. If this heat escapes from the oven, it can damage your cabinets. While this is a rare circumstance, you can minimize the risk of cabinet damage by removing cabinet door and drawers nearest the oven before using its self-cleaning feature.
